

Installing Mobile Talker V3

Step 1. Download the appropriate Mobile Talker SD Card Image (ZIP Format).

Step 2. On your PC, extract the image to root of an SD Card compatible with your Windows Mobile PDA or phone.

Step 3. Insert the SD Card into your Windows Mobile PDA or phone.

The installation should then start automatically. Please follow the on-screen instructions.

When complete, you can start Mobile Talker from Start Menu, Programs, Mobile Talker.

Trial Period:

Until a licence is purchased for Mobile Talker, you can run it 20 times for up to 1 hour each time. After this it will no longer work, even if you re-install it.

When you have purchased a licence you can register your copy on-line by connecting your device to the internet (either directly or via an Internet connected PC) and running the Register program: Start Menu, Programs, Mobile Talker Register.

Support:

For support please email support@bostock.com with a subject of "Mobile Talker".
